EDISON ELECTRIC INSTITUTE

INDEX TO 1942 EDISON ELECTRIC INSTITUTE BULLETIN

Volume 10

Issue	*Pages*	*Issue*	*Pages*
January	1- 40	July	249-284
February	41- 76	August	284-320
March	77-112	September	321-356
April	113-168	October	357-392
May	169-206	November-December	393-424
June	207-248		

General Index

A

Accident Prevention
- Conserving Man Power by Effective Health Education—Dr. John J. Brandabur, 59
- Conservation of Linemen's Rubber Protective Equipment—Roy M. Godwin, 256
- Industrial Health—Dr. C. O. Sappington, 88
- Industrial Safety and the War Effort—John Stilwell, 17
- Priorities on Safety Equipment—T. R. Claffy, J. B. Davies and H. B. Wilson, 96
- Safe Practices Key to Combating Warm Weather Electrical Hazards—W. R. Smith and D. C. Stewart, 179
- Scientific Approach in Selecting the Right Man for the Job—Dr. Morris S. Viteles, 264
- Theory of Probability Applied to Accidents—D. C. Stewart, 257
- Utility Safety Program Which Brought Results—H. O. Sprinkle, 298
- Value of Industrial Nursing Services in Small Industries—Phoebe Brown, 162

Accident Prevention Committee
- Chicago Meeting, 164, 202
- October Meeting, 418
- Personnel 1942-1943, 313
- Pittsburgh Meeting, 11, 107

Accounting Conference
- Program, 163
- to be held in May, 94
- war-time problems, 201

Accounting Executive Committee
- Personnel 1942-1943, 316, 385

Accounting Institute of Columbia University, 297

Accounting problems, current, 237

A Challenge to the Industry—M. B. Covell, 80

A Design for Building Good Will—James E. Davidson, 43

Advertising
- Getting the Best Out of a Small Budget—Charles J. Allen, 289
- Utility Advertising in War Time—Davis M. DeBard, 269

Air conditioning, growth in recent years, 350

Air Raids
- Air raid damage to electricity supply, British experience, 19
- How British Utility Accountants Met the Blitz—E. N. Keller, 190
- Protection of Electric Public Utility Systems Against Air Raids—A. V. DeBeech, 183
- Safeguarding records, 340

American Research Committee on Grounding, 311

An Educational Program for Industrial Fire Prevention Protection—Joseph A. McGuckin, 91

An Effective Farm Service Program—Based on Study of Individual Needs, 351

Appliance Maintenance Committee, Personnel 1942-1943, 386

Appliances
- Annual use of electricity, 138
- Appliance Problems of Today and Tomorrow—B. W. Clark, 230
- Assisting the Customer to Make Maximum Effective Use of His Existing Electrical Facilities—E. A. Brand, 131
- Domestic electric appliances in 1941, 16
- Serious Shortages in Manpower for Appliance Maintenance Disturbing to Dealers, 413

Assisting the Customer to Make Maximum Effective Use of His Existing Electrical Facilities—E. A. Brand, 131

A Survey of Various Classes of Direct Damage Insurance Carried by Electric and Gas Utilities—Reginald Fleming, 161

B

Better Copy Contest, 110, 281

Better Light-Better Sight
- Light Makes Sight, film, 95

Bi-Monthly or Quarterly Meter Reading and Related Billing Plans—H. B. Hardwick, 393

Blackouts and Dimouts
- *See also* Lighting
- Blackouts and the Electric Industry, 1
- Light and Darkness in National Defense—S. G. Hibben, 261
- More About Blackouts: Dissimilarities of British and American Needs—Alexander Maxwell, 77
- Residence Blackout Methods and Materials—E. W. Commery, Helen G. McKinlay and Mary E. Webber, 371
- The Blackout—Colonel M. C. Mapes, 172
- The Dim-Out—Alexander Maxwell, 369

Book Reviews
- *See* Publications

British Experience in Overcoming Raid Damage to Electricity Supply, 19

Business and Bureaucracy, a British Observation, 272

Business of War—C. W. Kellogg, 357

C

Cables
- *See also* Wiring
- British Experience in Overcoming Raid Damage to Electricity Supply, 19
- Cable Loading for War Industry Loads—E. W. Oesterreich, 45
- Effects of Pole End Bonding in Lightning Arrester Protected Cable Installations—N. B. Walsh, 53
- Low Frequency Shielding in Telephone Cables, 245
- Non-Metallic Sheathed Cable Under Code Amendments 43 and 44, 337
- Results of Emergency Overload Tests on 24 kv, 3-Conductor Paper and Lead Cable—G. B. McCabe and Joseph Sticher, 405
- Use of Steel Wire for Overhead Line Extensions—S. O. Miller, 197

Canadian Electrical Association Convention, 282
Census Useful to Electric Industry, 21
Code for Electricity Meters, revisions, 424
Coffin, Charles A., Award, *See* Prizes and Prize Awards
Colonel Kelly Honored by A.S.C.E., 44
Columbia University's Accounting Institute, 297
Commercial Conference, Ninth—C. E. Greenwood, 113
Commercial Committees Realigned for Victory, 35
Commercial Outlook for 1942—C. E. Greenwood, 7
Committees
See Specific Committee
Personnel 1942-1943, 313, 385
Conference on Reclamation and Scrap Salvage Held at Philadelphia, 62
Conservation of Automotive Equipment—Jean Y. Ray, 361
Conservation of Critical Materials Used on Overhead Lines—H. J. Henderson, 48
Conservation of Linemen's Rubber Protective Equipment—Roy M. Godwin, 256
Conserving Man Power by Effective Health Education—Dr. John J. Brandabur, 59
Conventions
See Specific Convention or Meeting
Annual EEI Convention Cancelled, 77
Converting Civilian Production to War Production—W. H. Wheeler, Jr., 136
Coordination of Distribution and Power Supply System Voltages—C. E. Arvidson, 295
Cost of Living and Electric Rates—F. A. Newton, 398
Council of Electric Operating Companies, 92
Current Accounting Problems—G. H. Bourne, 237
Curtis, Augustus D. *See* Prizes and Prize Awards
Customer Relations
See also Public Relations
Getting the Best Out of a Small Budget—Charles J. Allen, 289
Helping the Dealers to Help Themselves—S. P. Vecker, 124
Home Service at Work on the Home Grounds—Eloise Davison, 127
Serving Civilian Needs in the Present Emergency—S. P. Vecker, 310
Customers' Relations, Commercial Accounting and Collections Committee, Personnel 1942-1943, 385

D

Depreciation Committee, Personnel 1942-1943, 385
Design of 33,000 Volt Wood Pole Line—C. H. Lindell, 273
Dim-Out
See also Blackouts and Lighting
The Dim Out—Alexander Maxwell, 369
Discussion of Interim Report on Guides for Overloading Transformers and Voltage Regulators—M. S. Oldacre, 382
Distribution
Coordination of Distribution and Power Supply System Voltages—C. E. Arvidson, 295
Low Frequency Induction from Normal Load Currents of Distribution Feeders, 244

E

Early Troubles of the Power Engineer—Alex Dow, 333
Edison Electric Institute
Committee Personnel 1942-1943, 313, 385
Edison Electric Institute Annual Meeting
General story, 212
President's Address, 209
Edison Medal Awards, 63, 108, 242
Edison's Birthday is observed nationally, 41
Effect on Electric Utility Companies of New Federal Tax Provisions—C. W. Kellogg, 285
Effects of Pole End Bonding in Lightning Arrester Protected Cable Installations—N. B. Walsh, 53
Electric Utilities and the War Production Program—W. H. Harrison, 217
Electric water heaters standardization, 336
Electric Water Heating Committee
Personnel 1942-1943, 386
Electrical Equipment Committee Meeting
Chicago meeting, 165, 203
Cincinnati meeting, 389
Personnel 1942-1943, 313
Pittsburgh meeting, 12, 70
Electricity Will Help Fill Freedom's Market Basket—P. T. Montfort, 157
Employee Relations
Conserving Man Power by Effective Health Education—Dr. John J. Brandabur, 59
Personnel Problem of Electric Industry Under War Conditions—Tom P. Walker, 235
Engineering Committee Meetings
See specific meeting
Program of Joint Meeting, 164
Entering the Seventh Decade of Electric Power—Charles E. Neil, 321

F

Farm Service Program of the Puget Sound Power and Light Company, 351
Farm Utilization Committee, Personnel 1942-1943, 386
Farmers Are Aided by Utilities to Secure Maximum Food Production, 99
Field Experience with Effective Power Rationing—Charles A. Collier, 175
Field Testing of Generator Insulation, 25
Films
It Happened in the Kitchen, 33
Light Makes Sight, 95
Fire prevention, industrial, 91

G

General Commercial Committee, Personnel 1942-1943, 316, 386
General Power Conference tuned to war program, 42
Generating capacity
increased use, 249
war demands, 10
Generator insulation, field testing, 25
Getting the Best Out of a Small Budget—Charles J. Allen, 289
Growth of Air Conditioning in Recent Years, 350

H

Helping the Dealers to Help Themselves—S. P. Vecker, 124
Holding Customer Good Will Under Emergency Conditions—Edwin Vennard, 153
Home Lighting Display Contest, 109
Home Service at Work on the Home Grounds—Eloise Davison, 127
Home Service Committee, Personnel 1942-1943, 387
Home Service Today, 75
Household Appliances Determine Amount of Electricity Used, 138
How British Utility Accountants Met the Blitz—E. N. Keller, 190
How Utilities Are Aiding Farmers to Secure Maximum Food Production, 99
Hughes, George A., Award, *See* Prizes and Prize Awards

I

Idle Electric Generating Capacity, 249
Industrial Health—Dr. C. O. Sappington, 88
Industrial Load Control—James V. Alfriend, Jr., 193
Industrial Power and Heating Committee, Personnel 1942-1943, 387
Industrial Safety and the War Effort—John Stilwell, 17
Insurance Committee, Personnel 1942-1943, 315
Insurance, direct damage, carried by electric and gas utilities, 161

J

Joint Engineering Committee Meetings
Program, 164
War time problems, 11

L

Lamps, outlook for supply, 145
Lengthened Shadow of One Man, 116
Lettering on Engineering Drawings—F. P. Kuhl, 415
Lighting
See also Blackouts
Light and Darkness in National Defense—S. G. Hibben, 261
Light for Protection—E. P. Coffey, 143
Lighting for Production—John O. Kraehenbuehl, 139
Lighting Voltage Trend in U. S. A., 389
Outlook for Supply of Lamps and Lighting Equipment—Don M. Julien, 145
Protection Against Sabotage—J. A. Summers, 410
Residence Blackout Methods and Materials—E. W. Commery, Helen G. McKinlay and Mary E. Webber, 371
Salvaging Waste Light for Victory—Arthur A. Brainerd and Robert A. Massey, 341
Why Good Lighting Will Help Win the War—H. Freeman Barnes, 13
Lighting Committee, Personnel 1942-1943, 387
Linemen's rubber protective equipment, 256

M

Maintaining Residential Usage by Our Customers—A. C. Crandall, 149
Maintenance of the National Life—C. W. Kellogg, 119
Martin, Thomas W., Award, *See* Prizes and Prize Awards
Maryland Utilities Association
April meeting, 52
Matching the Load and the System Capacity—W. J. Lyman, 49
Matthews, Claude L., Valor Award, *See* Prizes and Prize Awards
McCall, Laura, Awards, *See* Prizes and Prize Awards
McGraw, James H., Awards, *See* Prizes and Prize Awards
Meetings, *See* Specific meeting
Membership Committee, Personnel 1942-1943, 315
Meter and Service Committee, Personnel 1942-1943, 314
Meter reading, bi-monthly and quarterly, 293, 393, 396
Missouri Association of Public Utilities Meeting
Election of officers, 133
Mobile Demonstration Unit Aids Farmers in Maintenance of Electrical Equipment—C. E. Jeerings, 344
Modern Kitchen Bureau
It Happened in the Kitchen, film, 33
Kitchen Planning Manual, 73
MKB Communique Makes Its Initial Bow, 354
National Water Heater Awards, 241
Water Heating and Home Lighting Display contests, 109
More About Blackouts—Alexander Maxwell, 77
Motion Pictures, *See* Films

N

National Electrical Code, revisions, 424
National Safety Council
Dearborn named Managing Director, 297
National Water Heater Awards, *See* Prizes and Prize Awards
1940 Census Provides Much Information—Merle Rainey, 21
Ninth Annual Commercial Conference, *See* Commercial Conference
Non-Metallic Sheathed Cable Wiring Under Code Amendments 43 and 44—E. S. McConnell, 337

Quarterly Meter Reading with Monthly Billing—John A. Williams, 293

R

Rate Research Committee, Personnel 1942-1943, 315
Rates, electric vs. cost of living, 398
Reddy Kilowatt Award, *See* Prizes and Prize Awards
Residence Blackout Methods and Materials—E. W. Commery, Helen G. McKinlay and Mary E. Webber, 371
Results of Emergency Overload Tests on 24-kv 3-Conductor Paper and Lead Cable—G. B. McCabe and Joseph Sticher, 405
Revenue Act of 1942, 181
Role of Electrical Manufacturers in the War Effort—Chester H. Lang, 219

S

Sabotage, protection, 410
Safeguarding Records from Air Raids, 340
Safe Practices Key to Combating Warm Weather Electrical Hazards—W. R. Smith and D. C. Stewart, 179
Salvage
A Challenge to the Industry—M. B. Covell, 80
Salvage and Reclamation Operations at Indianapolis—T. W. Ayton, 82
Salvage and Reclamation Operations of Utilities in the War Program, 79
Salvaging Waste Light for Victory—Arthur A. Brainerd and Robert A. Massey, 341
Utility Scrap and Salvage Handling in an Area of Low Population Density—H. E. Hodgson, 79
San Diego Gas and Electric Company wins Coffin Award, 222
Sauce for the Goose—Charles A. Collier, 223
Scientific Approach in Selecting the Right Man for the Job—Dr. Morris S. Viteles, 264
Scrap Collection, 402, *See also* Salvage
Sequence Relay—Charles L. Betts, Jr., 301
Serious Shortages in Manpower for Appliance Maintenance Disturbing to Dealers, 413
Serving Civilian Needs in the Present Emergency—S. P. Vecker, 310
Standardization of electric water heaters, 336
Standardization of Utilization voltages, 243
Statistical Committee, Personnel 1942-1943, 315
Streamlining Reports—J. S. Phillips, 195
Substitutions of Material and Changes in Practice to Meet Wartime Conditions—L. M. Smith, 403
Supplying Kilovar Loads for War Conservation and Economy—M. C. Miller, 363
Surge Phenomena, 36

T

Taxes
Effect on Electric Utility Companies of New Federal Tax Provisions—C. W. Kellogg, 285
The Present Status of the Utilities—C. W. Kellogg, 169
The Use of Steel Wire for Overhead Line Extensions—S. O. Miller, 197
Theory of Probability Applied to Accidents—D. C. Stewart, 257
Transmission and Distribution Committee
Chicago Meeting, 164, 204
Cincinnati Meeting, 388
Cleveland Meeting, 12, 71
Personnel 1942-1943, 314

U

Utilities War Time Transportation Problems—J. G. Holtzclaw, 233
Utility Advertising in War Times—Davis N. DeBard, 269
Utility Scrap and Salvage Handling in an Area of Low Population Density—H. E. Hodgson, 79
Utility Safety Program Which Brought Results—H. O. Sprinkle, 298
Utilization Voltage Standardization Recommendations, 243
Utilization Voltages—Howard P. Seelye, 83

V

Value of Industrial Nursing Services in Small Industries—Phoebe Brown, 162
Victory "V," 142
Voltage standardization, 243

W

Walker Heads Newly Formed Council of Operating Companies, 92
War and Utility Advertising—H. S. Metcalfe, 129
War Safety in the Public Utility Industry—H. O. Sprinkle, 399
War Time Developments in Electric Wiring—E. S. McConnell, 93
We're in the Army Now—R. E. Fisher, 117
Wiring
See also Cables
Non-Metallic Sheathed Cable Wiring—E. S. McConnell, 337
Opportunities for Conservation of Critical Materials in Victory Housing and Industry—J. F. Porter, Jr., 134
Use of Steel Wire for Overhead Line Extensions—S. O. Miller, 197
war-time developments, 93
Wiring Committee, Personnel 1942-1943, 387
What Is Expected of Agriculture During the War Emergency—Sherman E. Johnson, 121
What of Tomorrow?—C. M. Turner, 334
Why Good Lighting Will Help Win the War—H. Freeman Barnes, 13
Wood preservative treatment, 57
